1	Giriş & Kurulum	6	Uygulamayı Yayınlama
2	Konteyner Yönetimi	7	Konteyner Kaynak Yönetimi
3	İmaj Yönetimi	8	Docker Compose
4	Network Yönetimi	9	Docker Swarm
5	Veri Birimi Yönetimi	10	Docker & Traefik
11	Docker & Loglama	12	Docker & Metrikler

# Neden Docker ?

The screenshot shows the dotCloud website homepage. At the top, the dotCloud logo is on the left, and navigation links (Home, Docs, Help, Blog) and a Sign In button are on the right. Below this is a dark navigation bar with links to Home, Tour, Gallery, Pricing, and About, along with a prominent green Sign Up button. The main hero section has a blue background with the text "One Platform, Any Stack" and "Build and deploy any application to the cloud. Manage it all in one place." To the right of this text is a graphic of three stacked 3D cubes, one green and two blue. Below the text are two buttons: "Sign Up Free" and "or Take a Tour". A light blue banner below the hero section states "Trusted by thousands of developers." and includes a "RECENTLY" tab with a link to "DotCloud Is Open for Business! We've Got Pricing & Open Signup". The bottom section is divided into two columns. The left column, titled "Build Your Ideal Stack", displays a grid of 18 technology logos including CouchDB, Cassandra, PostgreSQL, PHP, RabbitMQ, Membase, Node.js, Ruby, Python, MongoDB, Memcached, Java, Redis, Hadoop, Riak, and Perl. The right column, titled "Featured: FutureAdvisor", shows a screenshot of the FutureAdvisor website and three logos for Java, Rails, and MySQL.

## Community ve Enterprise Farkı:

Community Sürümü :	Enterprise Sürümü :
Ücretsiz Açık Kaynak Kod Sürümü	Üç sürümü mevcuttur: Temel, Standart ve Gelişmiş.
	Docker Sertifikalı Altyapı
	Docker Trusted Registry güvenlik taraması ile imaj yönetimi
	Universal Control Plane ile konteyner uygulaması yönetimi
	Docker Desktop Enterprise ile geliştirici çözümleri
	Ücretli Destek

Docker Windows Üzerinde:
